

INDUSTRIAL RADIO REMOTE CONTROL

Universal Industrial Remote Control

A classic in design and functionality at an affordable price, making it the most popular industrial remote control model on the market.

Multi-Function Industrial Remote Control

Featuring a new design with more buttons and versatile functionalities, this remote control is engineered to handle complex applications.

More Industrial Remote Controls

Introducing more features such as joysticks and reinforced designs, making our products more versatile, durable, and suitable for a wider range of applications.

Comprehensive product range covering all applications

TELECTRL INDUSTRIAL REMOTE CONTROL

Teleporting Control, Transforming Industries

TeleCtrl has been dedicated to the research, development, production, and sales of industrial remote control products. We have grown into one of the largest manufacturers in the global industry.
